EXPERIENCE

FRANKIE SAYS

Word-Press Custom API Integrator | December 2022 - September 2023

PROJECT URL: <https://frankiesays.uk>

- Converted Figma designs to reusable React components, ensuring the website accurately reflected the intended design and user experience.
- Integrated with the Guesty API platform, loading apartment data onto the website and enabling users to search, browse, and book reservations seamlessly.
- Customized WordPress sites to align with specific branding guidelines and requirements, modifying themes, layouts, and styles.
- Added new features to enhance website functionality and user experience, such as integrating additional APIs, creating custom forms, and improving site navigation.
- Integrated various APIs into the WordPress website, enabling data exchange, enhancing functionality, and providing seamless user experiences.
- Ensured code quality and optimization, writing clean, efficient, and well-structured code following best practices and industry standards.
- Collaborated with designers and developers to understand design requirements and translate them into functional components.
- Troubleshoot and resolved technical issues or bugs that arose during the development process or after deployment, conducting thorough testing and bug fixing.
- Maintained proper documentation of the development process, including API documentation, code comments, and user manuals.

FIVERR

Frontend Developer | October 2020 – Present

- Converted figma, psd designs to HTML templates.
- Converted Figma designs to ReactJs websites.
